

# ROLES OF LIVESTOCK IN SUSTAINABLE FOOD SYSTEMS

Embracing change and harnessing diversity

## VIDEOCONFERENCE (ZOOM) 25 and 26 May 2021: 14:00 – 16:45

Sub-regional consultation (CH and F) of the Global Agenda  
or Sustainable Livestock

Prominent speakers from Switzerland and France, best practices,  
panel and group discussions. Case studies and future outlook for  
Livestock Systems:

- > What can we learn from Swiss and French Jura Livestock Systems to enhance sustainable production?
- > What is the contribution of these regions to sustainable and resilient food systems?
